DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Arguments/Remarks, filed 10/14/2008, with respect to the rejection(s) of claim(s) 1-28, 33-34, 37-38 and 78 under Safadi (US 2005/0289617) and Callway (US 6,950,772), etc have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-28, 33-34, 37-38 and 78 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Regarding Claim 1, the negative limitations such as "the input multiplexer not including a tuner" and "the output multiplexer not including a tuner" are not disclosed in the specifications, therefore, fails to comply with written description requirements under 35 U.S.C. 112, first paragraph.

Regarding Claims 2-28, 33-34, 37-38 and 78, they are also rejected since they are dependent on Claim 1.
